In particular, the arrow indicating the electronics section 30 in Figs. 2 and 3 has been moved to clearly show that element 30 does not refer to the divider between the battery 32 and pump 28. Also, in Fig. 5, additional connector lines from element 318 to 328 and 328 to 330 have been eliminated. Further, in Fig. 5, a KEY PARAMETERS element connected to element 336 is now numbered 337. Also, battery 310 is now shown more clearly and arrowheads associated with elements 9, 300, and 328 have been added.

Respectfully submitted
